REPRINTS

The conspicious number (5500 to 5512) aligned in the margin with the title of each review in this volume is a key for use in the ordering of reprints.

Beginning with July 1970, reprints will be available from all future Annual Reviews volumes. Reprints of most articles published in the *Annual Reviews of Biochemistry and Psychology* from 1961 to 1970 and the *Annual Reviews of Microbiology and Physiology* from 1968 to 1970 are now maintained in inventory.

Available reprints are priced at the uniform rate of $1 each postpaid. Payment must accompany orders less than $10. The following discounts will be given for large orders: $5–9, 10%; $10–24, 20%; $25 and over, 30%. All remittances are to be made payable to Annual Reviews Inc. in US dollars. California orders are subject to a sales tax. One-day service is given on items in stock.

For orders of 100 or more, any Annual Reviews article will be specially printed and shipped within 6 weeks. Reprints which are out of stock may also be purchased from the Institute for Scientific Information, 325 Chestnut Street, Philadelphia, Pa. 19106. Direct inquiries to the Annual Reviews Inc. reprint department.

The sale of reprints of articles published in the Reviews has been expanded in the belief that reprints as individual copies, as sets covering stated topics, and in quantity for classroom use will have a special appeal to students and teachers.
